

A POLITICAL THEOLOGY OF CLIMATE CHANGE

Much current commentary on climate change, both secular and theological, focuses on the duties of individual citizens to reduce their consumption of fossil fuels. In *A Political Theology of Climate Change*, however, Michael Northcott discusses nations as key agents in the climate crisis. Against the anti-national trend of contemporary political theology, Northcott renarrates the origins of the nations in the divine ordering of history. In dialogue with Giambattista Vico, Carl Schmitt, Alasdair MacIntyre, and other writers, he argues that nations have legal...

Reader's Opinions

This was a required read for my religion and ecology graduate seminar. Northcott is obviously a well-researched and knowledgeable guy. But the material is too dense. I was expecting more from his final chapter where he lays out his solutions, but even then, I felt like it was all too theoretical and not practical enough.
