

BEHIND DEEP BLUE: BUILDING THE COMPUTER THAT DEFEATED THE WORLD CHESS CHAMPION

On May 11, 1997, as millions worldwide watched a stunning victory unfold on television, a machine shocked the chess world by defeating the defending world champion, Garry Kasparov. Written by the man who started the adventure, Behind Deep Blue reveals the inside story of what happened behind the scenes at the two historic Deep Blue vs. Kasparov matches. This is also the story behind the quest to...

Reader's Opinions

Hsu isn't exactly a gifted wordsmith, and it would be nice to hear a little more about his ethos as a toolmaker and his thoughts on what was happening, and a little less about each and every single move from a particular chess game, but this remains a fascinating, enjoyably unvarnished look at the day-to-day machinations of pushing...
